A slipcover graced with a dramatic script letter—satin-stitched by hand—turns an anonymous work area into a private haven. OPPOSITE: Monogram slippers for the whole family. Children will adore a personalized pair. Covered buttons (top) have delicate lowercase letters embroidered in a satin stitch (see page 175 for details). Felt patches with satin-stitched initials (middle) are tacked to the slippers with French knots. Calligraphic letters (bottom) embroidered in French knots have a raised, nubby look.
